

**A WI-FI MODULE COMPATIBLE WITH ANY FARGO® ETHERNET-ENABLED PRINTER/ENCODER**

- **Convenience and Flexibility** – Today’s Wi-Fi networks provide the flexibility and convenience to use your card printer/encoder anytime from anywhere.
- **Mobile Enrollment and Issuance** – By combining Asure ID® card personalization software on a Windows® 8 Pro Tablet featuring wireless connectivity to the network and printer, you can enroll and issue cards wherever your customers or employees happen to be located.

**The FARGO® Printer Wi-Fi Accessory comes complete with:**

- Ethernet-enabled FARGO® printer compatible Wi-Fi module.
- Power adapter (US and European power plug connector).
- Pre-loaded Wi-Fi module software for use with compatible FARGO printers.
- Web interface for configuration of Wi-Fi network and security settings.
- Wi-Fi module printer mounting bracket.
- Short Ethernet cables (6” and 12”).
- Installation guide.

Consumers today value ease-of-use and versatility, and expect to receive products and services when and where they need them. With FARGO® mobile enrollment and issuance, businesses can maintain a competitive advantage by creating and producing IDs and membership cards from any location, at any time.

**Easy to Integrate**

To enable mobile enrollment and issuance with the FARGO printer, the Wi-Fi accessory can be easily added to any Ethernet-enabled FARGO printer. A single Wi-Fi module can be purchased to use among multiple FARGO printers, giving you an economical solution for mobile enrollment and issuance.

**The FARGO Printer Wi-Fi Accessory features:**

- Asure ID software compatible with Windows 8 Pro Tablets to enable mobile enrollment and issuance of cards via a wireless network or a wireless-enabled FARGO printer.
- Compatibility with 802.11 wireless network protocols – station (STA), B, G, N or mixed mode operation.
- Field-tested and proven to work with current FARGO printers.
- Step-by-step instructions on how to install and configure the Wi-Fi accessory with a secure and unsecured wireless network.
