Safety instructions

Observe the following instructions to use the product safely and prevent any risk of injury or property damage.

Warning

Noncompliance of instructions could lead to serious injury or death.

Installation

Do not install the product in a place with direct sunlight, moisture, dust, or soot.

- A fire or electric shock may occur.

Do not install the product in a place with heat from an electric heater.

- A fire or electric shock may occur due to overheating.

Install the product in a dry place.

- Otherwise, a product damage or electric shock may occur due to moisture.

Install the product in a place with no electromagnetic interference.

- Otherwise, a product damage or electric shock may occur.

The user should not install or repair the product independently.

- A fire, electric shock, or personal injury may occur.
- If the product has been damaged due to independent installation or repair of the product by the user, free A/S service will not be provided.

Operation

Do not allow liquids such as water, beverages, or chemicals get into the product.

- A fire, electric shock, or product damage may occur.

Caution

Noncompliance of instructions could lead to minor injury or product damage.

Installation

Do not install the power supply cable in a place where people pass by.

- Product damage or physical injury may occur.

Do not install the product near a highly magnetic object such as a magnet, TV, (especially CRT) monitor, or speaker.

- A product failure may occur.

If installing the product outside where the product is completely exposed, it is recommended to install the product together with the enclosure.

Keep the minimum separation distances between the devices when install multiple devices.

- Otherwise, RF performance is affect to the other device, the devices may not operate normally.

Operation

Do not drop the product or apply an impact to the product.

- A product failure may occur.

When cleaning the product, wipe the product with a soft and dry cloth and no water, benzene or alcohol.

- Otherwise, a product failure may occur.

Quick Guide

Open Source Software Guide

NOTE

- Components may vary according to the installation environment.

Name and function of each part

Name	Description
LED lamp	Indicates the operational status of the device with the color of the LED lamp.
RF card authentication unit	Reads RF cards for entering and exiting.
Reset button	Initialize the device.
Cable	<ul style="list-style-type: none"> • Power cable • RS485 cable • Wiegand output cable • LED input cable • Beep Input cable • Tamper cable

Cables and connectors

Pin	Name	Color
1	PWR +VDC	Red
2	PWR GND	Black (White stripe)
3	485 TRXN	Yellow (Black stripe)
4	485 TRXP	Blue (White stripe)
5	WG D0	Green
6	WG D1	White
7	LED RED	Orange
8	LED GRN	Brown
9	BEEP	Purple
10	TMPR	Gray

Installation

Fixing the bracket and the product

- 1 Determine the correct position to install the bracket using the provided drilling template. Fix the bracket firmly using fixing screws through the bracket to the position where XPass D2 will be installed.

NOTE

- If installing XPass D2 on a concrete wall, drill holes, insert PVC anchors, and fix them with fixing screws.
- To avoid RF interference, a minimum separation distance must be maintained.

Wall

Wall thickness	Distance
100 mm	360 mm
120 mm	360 mm
150 mm	300 mm

- 2** Install XPass D2 onto the fixed bracket.

- 3** Connect XPass D2 to the bracket by rotating the product fixing screw.

Wall

Cable connection

XPass D2 can be used as an RFID card reader by connecting to a master device or a CoreStation.

Power supply connection

NOTE

- Use a power supply adaptor of DC 12 V ($\pm 10\%$) with a minimum of 1,500 mA which has obtained the approval of IEC/EN 60950-1. If you wish to connect and use another device to the power supply adaptor, you should use an adaptor with a current capacity which is the same or larger than the total power consumption required for the terminal and another device.

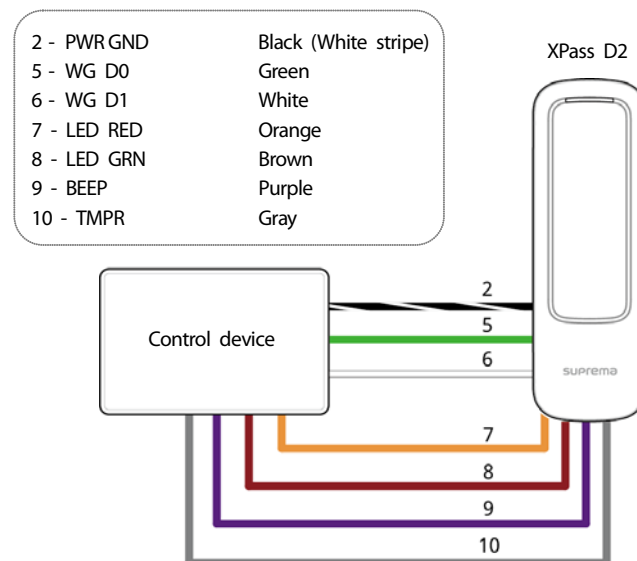

RS-485 connection

NOTE

- Use an AWG24 twisted pair with a maximum length of 1.2 km for the RS-485 cable.
- If connecting with a RS-485 daisy chain, connect the termination resistor (120 Ω) to both ends of the daisy chain connection. If connected to the middle line, the signal level becomes smaller and the communication performance will deteriorate. Make sure to connect it to both ends of the daisy chain connection.

Wiegand and other cable connections

Restoring the Factory Defaults

This will delete all data and root certificate on the device and reset the settings.

- 1 Turn the power on.
- 2 Press the reset button three times quickly.
- 3 When the yellow LED is blinking, press the reset button again.

NOTE

- If there is no root certificate on the device, you cannot restore the factory defaults.

Resetting the baud rate of RS-485

- 1 Turn the power on.
- 2 Press and hold the reset button for more than 1 second, then press and hold again for more than 2 seconds. When the device change to setup mode, the yellow LED is blinking.
- 3 Depending on the number of times the reset button was pressed, the baud rate changes. You can recognize the baud rate according to the LED color.

The number of times	Baud Rate	LED Color
1	9600	Cyan
2	19200	Blue
3	38400	Magenta
4	57600	White
5	115200	Red

NOTE

- If you do not press the reset button after changing to the setup mode, the baud rate is set to 115200.

Product specifications

Category	Feature	Specification
		XPD2-MDB
Credential	LF card option	EM
	HF card option	MIFARE, MIFARE Plus, DESFire/EV1, FeliCa
	NFC card	Supported
	BLE card	Supported
	RF read range *	MIFARE/DESFire/EM : 50 mm, FeliCa: 30 mm
General	CPU	80 MHz
	Memory	256 KB Flash + 64 KB RAM
	LED	Multi-color
	Sound	Multi-tone Buzzer
	Operating temperature	-35 °C - 65 °C
	Storage temperature	-40 °C - 70 °C
	Operating humidity	0% - 95 %, non-condensing
	Storage humidity	0% - 95 %, non-condensing
	Dimension (W x H x D)	48 mm x 144.7 mm x 27 mm
	Weight	Device: 117 g Bracket: 30 g (Including washer and bolt)
	IP rating	IP65, IP67
	IK rating	IK08
	Certificates	CE, FCC, KC, RoHS, REACH, WEEE, SIG
Interface	RS-485	1ch
	Wiegand	1ch
	LED	2ch
	Beep	1ch
	Tamper	Supported
Electrical	Power	Voltage: DC 12 V, Current: Max. 400 mA * Use 12 VDC, 1.5A power supply.
	LED, Beep input V _{IH}	Min. 3 V Max. 5 V
	LED, Beep input V _{IL}	Max. 1 V
	LED, Beep Pull-up resistance	4.7k Ω (The input ports are pulled up with 4.7k Ω .)
	Wiegand output V _{OH}	Min. 4.8 V
	Wiegand output V _{OL}	Max. 0.2 V
Wiegand output Pull-up resistance	Internally pulled up with 1 k Ω	

* RF read range will vary depending on the installation environment.

Dimensions

(Unit: mm)

* The tolerance is $\pm 0.3\text{mm}$.

FCC compliance information

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment under FCC rules.

This appliance and its antenna must not be co-located or operation in conjunction with any other antenna or transmitter. A minimum separation distance of 20 cm must be maintained between the antenna and the person for this appliance to satisfy the RF exposure requirements.

Appendices

Disclaimers

- The information in this manual is provided with regard to the Suprema's products.
- The right to use is acknowledged only for products included in the terms and conditions of the sales agreement guaranteed by Suprema. The right of license to other intellectual property rights not discussed in this manual is not acknowledged.
- Suprema does not guarantee or hold responsibility for the suitability and commerciality of the product for a specific purpose, or the infringement of patent, copyright, or other intellectual property rights with regard to sales or usage of Suprema's products.
- Do not use the product of Suprema under the situations related to medical, rescue of human lives, or maintenance of life, as a person may get injured or lose his/her life due to product malfunction. If an accident occurs while a consumer is using the product under the situations described as examples above, employees, subsidiaries, branches, affiliated companies and distributors of Suprema do not accept responsibility nor will they reimburse for all related direct and indirect expenses or expenditure including attorney fees even if the consumer has discovered any shortcomings in the product design or manufacturing process and claims this as a significant fault.
- Suprema may modify the product size and specifications at any time without proper notice in order to improve the safety, function and design of the product. Designers must keep in mind that functions or descriptions indicated as "to be implemented" or "undefined" may change at any time. Suprema will implement or define such functions or descriptions in the near future and Suprema accepts no responsibility for compatibility issues and any other problems arising from such compatibility issues.
- If you wish to obtain the newest specifications before ordering the product, contact Suprema through a Sales Representative or local distributor of Suprema.
